## A corrigendum on

### Natural Killer Cells from Patients with Recombinase-Activating Gene and Non-Homologous End Joining Gene Defects Comprise a Higher Frequency of CD56<sup>bright</sup> NKG2A<sup>+++</sup> Cells, and Yet Display Increased Degranulation and Higher Perforin Content

by Dobbs K, Tabellini G, Calzoni E, Patrizi O, Martinez P, Giliani SC, et al. *Front Immunol* (2017) 8:798. doi: 10.3389/fimmu.2017.00798

There was a mistake in the authorship. The name of Nima Parvaneh was unintentionally omitted. Dr. Parvaneh has contributed biological specimens and clinical and immunological data from patient P66 included in the manuscript, and as such he should be included in the authorship. The authors apologize for the mistake. This error does not change the scientific conclusions of the article in any way.

**Conflict of Interest Statement:** The authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.

Copyright © 2017 Dobbs, Tabellini, Calzoni, Patrizi, Martinez, Giliani, Moratto, Al-Herz, Cancrini, Cowan, Bleasing, Booth, Buchbinder, Burns, Chatila, Chou, Daza-Cajigal, Ott de Bruin, de la Morena, Di Matteo, Finocchi, Geha, Goyal, Hayward, Holland, Huang, Kanariou, King, Kaplan, Kleva, Kuijpers, Lee, Lougaris, Massaad,

With the inclusion of Dr. Parvaneh's name in the authorship, the paragraph of Author Contributions should also be corrected as follows:

JM, EM, AM, SP, and LN designed the study, interpreted the data, and wrote the manuscript; KD, GT, EC, OP, PM, SG, and DM performed experiments, acquired and analyzed the data; WA-H, CC, MC, JB, CB, DB, SB, TC, JC, VD-C, LODB, MTDLM, GM, AF, RG, RKG, AH, SH, C-HH, MK, AIKi, BK, AnKI, TK, BL, VL, MiMa, IM, MeMo, BN, S-YP, NP, AP, SP, IR, JS, RS, TT, Y-JK, JW, AG, and SK contributed patient samples and clinical and immunological data; all authors have revised the work for its intellectual content, have approved its final version and have agreed to be accountable for all aspects related to the accuracy and integrity of the work.

This correction does not change the scientific conclusions of the article in any way.

Author apologizes for these errors and thank you for your consideration.

The original has been updated.
